State and federal laws require public school districts to release report cards to the public each year.

STUDENTS

RACIAL/ETHNIC BACKGROUND AND OTHER INFORMATION

	White	Black	Hispanic	Asian/ Pacific Islander	Native American	Multi racial /Ethnic	Low- Income Rate	Limited- English- Proficient Rate	High Sch. Dropout Rate	Chronic Truancy Rate	Mobility Rate	Attendance Rate	Total Enrollment
School	79.2	0.5	15.0	5.3	0.0	0.0	11.1	15.7		0.0	13.5	95.0	433
District	74.3	2.7	11.5	11.4	0.1	0.0	13.8	13.2		0.1	7.7	95.6	4,130
State	56.7	20.3	18.3	3.7	0.2	0.7	40.0	6.6		2.2	16.1	93.9	2,062,912

Low-income students come from families receiving public aid; live in institutions for neglected or delinquent children; are supported in foster homes with public funds; or are eligible to receive free or reduced-price lunches.

Limited-English-proficient students are those students eligible for transitional bilingual programs.

Mobility rate is based on the number of times students enroll in or leave a school during the school year.

Chronic truants are students who are absent from school without valid cause for 18 or more of the last 180 school days.

SCHOOL DISTRICT FINANCES

TEACHER/ADMINISTRATOR SALARIES (Full-Time Equivalents)

Salaries and counts of staff are summed across a district based on the percentage of time that each individual is employed as a teacher or an administrator and may or may not reflect the actual paid salaries for the district.

EXPENDITURE BY FUNCTION 2003-04 (Percentages)

State	**	**	\$5,216	\$8,786

** Due to the way Illinois school districts are configured, state averages for equalized assessed valuation per pupil and total school tax rate per \$100 are not provided.

Equalized assessed valuation includes all computed property values upon which a district's local tax rate is calculated.

Total school tax rate is a district's total tax rate as it appears on local property tax bills.

Instructional expenditure per pupil includes the direct costs of teaching pupils or the interaction between teachers and pupils.

Operating expenditure per pupil includes the gross operating cost of a school district excluding summer school, adult education, bond principal retired, and capital expenditures.

PLANNED IMPROVEMENT FOR THE SCHOOL AND DISTRICT

This is the final section of the school report card in which your school and district provide information below on areas of success and areas for planned improvement based on your school's improvement plan.

(For report cards disseminated electronically, this information may be provided in a separate document due to differences in the software used. If you are unable to locate this document, please contact your local school or district office.)

LYON SCHOOL Plan for Improvement

The School Improvement Plan for Lyon School during the 2005 – 2006 school year will be in the area of Mathematics. Historical data for the school has always indicated that mathematics has been a clear strength. During the time when we were participating as a K-3 school in the state assessment, currently ISAT, our students scores on the math portion of the test showed that 97.4 % of our Grade 3 students were scoring in that meets or exceeds category of the assessment. This was well above the state averages for math at Gr. 3.

Despite these scores we had a portion of our 1st and 2nd grade student population that struggled in the areas of math numeracy and number concept. These are key building blocks for the development of early mathematics skills. As we realigned attendance areas several years ago, and 3rd grade was moved from the building, we continued to watch this area of student learning. Through our schools recent involvement in the Principal-led Problem Solving Model we have worked with developing school intervention plans to meet the needs of our struggling learners. Again we found ourselves addressing the developing skills of our learners in the areas of numeracy and number concept as we gathered data on these students, and with the interventions we attempted to put in place. Staff determined from the information gained, and the work done with these students, that there was a need to focus additional attention in this area of mathematics.

This year utilizing some of the tools from the Math Their Way program we are working to supplement our current math program with more hands on tools for teachers.

Throughout this school year staff will be engaged in professional development to learn more about additional strategies and increased use of manipulatives to improve student understanding of numeracy and number concept.
