Swim America: Lesson Program

Glenbrook Aquatics is proudly continuing our highly recommend and outstanding SwimAmerica swimming lesson program this spring and summer seasons. SwimAmerica's goal is "to teach America to swim for health, safety, fun and fitness."

SwimAmerica is an international, state of the art, learn to swim program that operates in nine countries.

SwimAmerica believes that a student should not only be taught to swim but should be taught to swim well.

SwimAmerica programs operate in conjunction with The American Swimming Coaches Association and provides highly trained and certified instructors.

Some highlights of the program include:

- **Instructor to student ratio of 1 to 3 or better:** To ensure the most ideal teaching conditions, your child will be in a group with no more than 2 other children.
- **10 Levels of Advancement:** The program builds off the basics of floating and kicking, but the levels are set up so that a "graduate" of the program will be proficient in all 4 competitive strokes. The program design allows each child to progress at their own rate based upon skill attainment levels.
- **Specific goals in each level:** Children are directed toward specific advancement goals in each level. New enrollees will be given an award certificate on the first day of lessons. The certificate will have places for 10 stickers, and once a swimmer completes the advancement goals for a particular level, he or she will be rewarded with a sticker after the lesson.
