

Classroom/Team Party Food Guidelines

The following is a guide to be used for all classroom party celebrations in accordance with the District Wellness Policy. Remember, per the guidelines set by the Board of Education based on recommendations from parents, teachers and administrators, there will be NO food at any birthday party in District 34. These guidelines are for classroom and team parties that occur during the year.

The foods represented in these menu lists for school sponsored parties are foods chosen from a variety of resources including the Dietary Guidelines for Americans, the Heart Association, kidshealth.org, the USDA and the MyPlate Model. Foods chosen for parties must be of nutrient value and be low in fat, sugar and calories. Our children need our support in choosing the foods that will benefit their bodies and minds!

Please note that all food, including fruits and vegetables, need to be store bought and should not be handled and/or prepared prior to the party.
