

Glenview School District 34
1401 Greenwood Road
Glenview, Illinois, 60026-1511
www.glenview34.org

Dear District 34 Families,

As indicated in our communication on Friday evening, we have now posted all of our water testing results and a related summary to our district website. Please visit http://www.glenview34.org/parents/water_testing/index.asp for this information.

We encourage you to [view the summary report](#), which provides this very complex, detailed information in a format we thought would be supportive to our parent community.

The full results have been organized by school and, subsequently, dates when the district received the testing results. For some schools, several dates are listed because confirmation testing was required to ensure the district did not respond to false positives.

We will continue to update this webpage with any additional information as it becomes available.

Sincerely,
Superintendent Mike Nicholson
